HIGHER EDUCATION OF CHILDREN

The organization aims to offer quality higher education to empower children and secure their

Scholarship Endowment Fund for Higher Education

When the children reach the age of 18, normally they cease to receive sponsorship money, but we continue to support their higher education, which includes Professional, Vocational, or technical courses. We are in a difficult situation here as these courses are expensive. For this reason, we have created a scholarship endowment fund for higher education to help us meet these expenses.

Join us in the mission of empowering children with education which provides opportunities to secure stable jobs, earn a livelihood, and build a future for themselves.

MEDICINE AT PEOPLE'S DOORSTEP

(மக்களை தேர் மருத்துவம்)

The Tamil Nadu Government has launched a scheme for the health screening of people over 45 years old who have health issues. A medical team from the Government Primary Health Centre visits these individuals at their homes once every three months. During the visit, the team conducts health checks and prescribes necessary medications. This initiative is particularly beneficial for elderly grandmothers living at the Home, as it helps them adhere to their medication schedules.
